

Workshop Goals

Establish a Labnodes/Vanderbilt profile and ...

- Share your interests and expertise by creating a public profile that others can find.
- Learn how to update your profile, highlight your publications, and provide your contact information.
- Connect to and discover others with similar interests by using keywords.
- Also, learn how to set up your email preferences and how to assign a delegate to manage your profile.

Training Topics

- Profile
- Contact information
- Upload PubMed and PMC publications
- Affiliations to other Labnodes communities
- Assign a delegate
- Set email preferences

Self-Help

Need a refresher? Know someone who could not attend the training? We have resources available:
