

# Stem & Progenitor Cell Interest Group

Wednesday, October 7, 2020 - 9:00 am

Guest Speaker

**Jeffrey Rathmell, Ph.D.**

Professor of Pathology, Microbiology and Immunology  
Professor of Molecular Physiology & Biophysics  
Cornelius Vanderbilt Chair in Immunobiology

## “Fueling T Cell Differentiation and Function in Tissues”

T cells undergo metabolic reprogramming that shapes epigenetic marks and cell differentiation. How these pathways are regulated to shape immune and inflammatory responses in tumor and normal tissue microenvironments remains poorly understood. New approaches to examine in vivo metabolism and immunity will be discussed.
