

## - Investigator-Initiated Research

Charges reflect those for Vanderbilt investigator-initiated research.

Only charged for successful surgeries (animal healthy, catheters functioning).

20% Vanderbilt administrative fee added to cost for outside investigators.

**Keywords:** Core carotid artery carotid injury tail-cuff manometer blood pressure telemetry myocardial infarction  
aortic constriction

<b>Surgical</b>		
<i>Only charged for successful surgeries (animal healthy, catheters functioning).</i>		
Transmitter Implantation - Blood Pressure Telemetry		\$287.00
Transmitter Removal - Blood Pressure Telemetry		\$40.00
Transmitter Telemeter Usage (cost of transmitter only)		\$228.00
Pellet Implantation		\$9.00
Bladder Catheterization		\$11.00
Nephrectomy		\$30.00
Osmotic Pump Implant		\$11.00
Carotid Artery Implant		\$68.00
Myocardial Infarction		\$60.00
Carotid Injury Model		\$50.00
Aortic Constriction		\$60.00
Kidney Transplants		\$212.00
<b>Procedural</b>		
<i>Charges are per successfully completed procedure.</i>		
EKG - Telemetry (1 to 14 days)		\$38.00
EKG - Telemetry (more than 14 days)		\$19.00
Tail-cuff Manometer		\$7.00
Arterial Blood Pressure (1st hour) (per mouse)		\$12.00
Arterial Blood Pressure (additional hour)		\$6.00
Arterial Blood Pressure Without Assistance (1st hour) (per mouse)		\$7.00
Arterial Blood Pressure Without Assistance (additional hour)		\$4.00
Echocardiography - Low Resolution		\$23.00
Echocardiography (+ analysis) VEVO 2100		\$60.00
Echocardiography (no analysis) VEVO 2100		\$40.00
Direct Jugular Vein Injection/Take Samples		\$11.00
Tail Vein Injection		\$6.00
<b>Resource Usage</b>		
Respirator/Ventilator Usage (per day)		\$40.00
<b>Technical Resources</b>		
Research assistant time		\$19.00
