Please call to discuss technical details or modifications of any planned procedures. For example, echocardiography can also include a pharmacologic stress component, doppler measurements.

**Common Procedures** (*Arrange with Director*)

Transmitter Implantation & Removal (blood pressure telemetry)

Pellet Implantation

Bladder Catheterization

Nephrectomy

Osmotic Pump Implant

Carotid Artery Implant

Myocardial Infarction

Carotid Injury Model

Aortic Constriction

Kidney Transplants

EKG - Telemetry

Tail-cuff Manometer

Arterial Blood Pressure

Echocardiography – Low Resolution

Echocardiography – VEVO 2100

Direct Jugular Vein Injection

Tail-vein Injection

**Special Procedures** (*Arrange with Director*)
