Meeting Details

Start Date / Time	April 22, 2015 at 9:00 AM
End Date / Time	April 22, 2015 at 10:00 AM
Duration	1 hour(s)
Location	9455 MRB IV
Presenter Name	Gabrielle Rushing
Presentation Title	Investigating the Effects of Stem Cell Positional Identity on Brain Tumor Development
Status	This meeting has already occurred

Meeting Agenda/Notes

Recent work has shown that significant heterogeneity exists within the primary neural stem cell niche, the subventricular zone (SVZ). However, it is not clear whether these differences contribute to the development of human disorders. I am using a mouse model of the neurodevelopmental disorder Tuberous Sclerosis Complex (TSC) to investigate whether certain neural stem cell populations differentially contribute to disease state.
