Mission Statement

The Vanderbilt Creative Data Solutions Shared Resource provides unique and innovative solutions for research scientists and administrators, which rely on creative, informatics, bioinformatics and communication approaches.

About the Shared Resource

Creative Data Solutions is a Vanderbilt Shared Resource and has extensive experience in providing effective and robust solutions to challenges pertaining to research data using modern informatics and bioinformatics approaches.

We provide a wide array of services that are essential to support these goals. The following are available on a fee-for-service basis.

This shared resource was created in 2015.
