Landing Page Preferences

Key Concepts

1. Replace the community profile with your landing page.
2. Add a navigation tab that links to your landing page

Additional help is available at labnodes@vanderbilt.edu.

Replace the Community Profile Page with your Landing Page

If your center, core and/or department has a Labnodes landing page, you may replace the community profile with the landing page by selecting the preference outlined below:

1. Log in and navigate to your community profile page.
2. Click on the **Actions** button and select **Preferences** from the drop down menu.
3. Under the Landing page section of the community manage preferences page, check the **Yes** box next to **Redirect to Landing Page**.
4. Click **Save**

Add Landing Page Link to Community Side Menu

1. Follow steps 1 and 2 above.
2. Under the Landing Page section of the community manage preferences page, check the **Yes** box next to **Add A Link To The Community Side Menu**.
3. Click **Save**.

See the diagram below for both actions.
