Spotlight: Shari Barkin, M.D., M.S.H.S.

Shari Barkin, M.D., M.S.H.S. »
William K. Warren Family Foundation Chair in Medicine
Professor of Pediatrics
Director, Division of General Pediatrics
Director of Pediatric Obesity Research
Vanderbilt University School of Medicine

Expertise: Childhood obesity · body mass index · safety · violence prevention

Barkin is an advocate for children, especially those who are challenged by cultural, ethnic or socioeconomic disparities. An expert on all pediatric topics, Barkin is especially well-versed on childhood obesity and ways to help parents and society slow the epidemic growth of childhood obesity. She is also a Spanish speaker who works with Latino children and families to improve indicators of overall health.
