

Guidelines for Mouse Genome Editing Projects

Mouse Genome Editing at the Vanderbilt Genome Editing Resource

Keywords: [Gene-editing](#) [CRISPR/Cas9](#) [Mouse Transgenesis](#)

[Expand](#)

I have an idea for a new mouse model. How do I get started?

Please contact Leesa Sampson at leesa.sampson@vanderbilt.edu to set up an advisory meeting to discuss your project.

The Vanderbilt Genome Editing Resource is dedicated to providing high quality genome editing services to the Vanderbilt community. If you have any questions or concerns relating to the production of your genome edited mouse model, please contact us:
