Expand

We are available to meet with you and provide individual training.

This training is designed to:

1. Provide an overview of Labnodes navigation,
2. Describe/demonstrate the many Labnodes features and teach you how to optimize these for your specific needs,
3. Provide hands on training,
4. Answer your specific questions,
5. Identify features that you would like to see added to Labnodes.

To request a Group Training Session:

1. Email or call JP Cartailier at: jp.cartailier@vanderbilt.edu or 615-322-6987,
2. Identify date/time/location for training,
3. Plan to work on your computer. If you prefer to meet in a conference room, ask us to reserve a meeting space, or provide a space for the session.

Follow-up training is also available upon request.
